( REQUIRED )

**Hi Tilly,**

Blue Box HQ has enhanced your email experience with Shield Pro. All the core security features you've come to rely on are still intact, but you now have the added benefit of new privacy and productivity capabilities.

We've created a welcome guide to introduce you to the new functionality and walk you through configuration. Once you've completed the setup, Shield Pro will be active for your mailbox.

**NOTE:** if you do not [complete the welcome guide](#), Shield Pro will not be activated for you.
